Summary

Seasoned User Interface/User Experience Designer and Front-End Developer with over two decades of industry experience, specializing in creating intuitive and engaging digital experiences, including Shopify e-commerce solutions.. Recognized for exceptional work ethic and dedication, consistently exceeding performance expectations. Proficient in a suite of web development tools including React, Remix, Tailwind UI, Framer Motion, and Adobe Creative Suite, enhancing design efficiency and aesthetics. Complementing technical skills with a solid foundation in data science and machine learning. A lifelong learner committed to staying at the forefront of technology trends, with a robust portfolio showcasing projects across diverse sectors.

Skills

- **Full-Stack Development:** Extensive experience with ReactJS, Remix, Angular, Svelte, Vue, and RESTAPIs. Proficient in JavaScript, TypeScript, jQuery, and Bootstrap.
- **Frontend Design:** Experienced in creating responsive, dynamic, and engaging user interfaces utilizing HTML, CSS, and modern frontend frameworks such as Tailwind UI and Framer Motion. Skilled in employing a wide range of cutting-edge libraries and tools to optimize performance, enhance user experience, and ensure cross-browser compatibility, as well as Shopify and ecommerce web design.
- **Cross-Platform Mobile Application Development:** Extensive experience in React Native, Expo, Swift
- **Chatbot Design:** Implemented chatbots with voice user interface (VUI) using Whisper model, prompt engineering for multi-turn interactions with RAG
- **Platforms:** AWS, Google Cloud Platform (GCP); Experience with CI/CD pipelines; NLP technologies: working knowledge of IBM Watson, Google DialogFlow, Microsoft LUIS, Amazon Lex
- **Design and Prototyping:** Wireframing, prototyping, interaction design with Figma, Adobe XD
- **Asset Design and Editing:** Stable Diffusion, Dall-E, Adobe Photoshop, Adobe Illustrator
- **Programming Skills:** Advanced Python, JavaScript, TypeScript, JavaScript XML, HTML, CSS, SQL, MySQL, SQLAlchemy, Flask, Django, Unix, JSON, C

Data Science & Analytics

- **Data Science & Machine Learning**: Proficient in time series forecasting and predictive modeling, utilizing Python (Pandas, NumPy, Sci-kit Learn, PyTorch, TensorFlow) and Matplotlib, Seaborn, Plotly, and Tableau.
- **Advanced Machine Learning Models**: Hands-on experience with large language models such as ChatGPT and Anthropic's Claude; adept in natural language processing, sentiment analysis, generative AI training and implementation, and image classification.

Professional Experience

Co-Founder, DarkViolet.ai | UI / UX, Frontend, Full-Stack Development
Alpharetta, GA 2023 - current

- Co-founded a cutting-edge AI startup focused on innovative solutions for diverse industries
- Released *Dreams and Divinations with Dark Violet* on iOS on the App Store
